SUMMARY

AI systems and automation specialist who designs AI workflows with LLMs, builds end-to-end automations and internal tools, and leads AI adoption inside small organizations. Verified n8n creator (top 50 globally) with 25 published automation templates and 10,000+ total uses. Heavy day-to-day Claude Code development across client systems, course platforms, and live business workflows, with a focus on turning manual, repetitive work into reliable, human-checked systems.

SKILLS

AI and LLMs: Claude API, Claude Code (daily development), OpenAI ChatGPT, Google Gemini, prompt engineering, AI agents, RAG and knowledge systems

Automation and Integration: n8n (verified creator, top 50 globally, 25 templates, 10,000+ uses), Zapier, Power Automate, API and webhook integration, conditional logic, error handling

Systems and Development: Next.js, Supabase, JavaScript, REST APIs, JSON, CRM and data workflows, custom web applications

Enablement and Adoption: AI training delivery, course and curriculum design, stakeholder coaching, leading technology adoption across teams

EXPERIENCE

QuarterSmart - Founder and AI Automation Consultant

2025 to Present | Remote

Run an AI automation consultancy serving clients nationwide. Build and deploy AI agents and multi-step automations with Claude API, Claude Code, n8n, and Zapier, including AI-drafted email and SMS outreach, lead routing, and CRM and data workflows, plus custom web apps on Next.js and Supabase.

Dual Logic - AI Automation Consultant (Contract)

2026 to Present | Remote

Build AI automations and Zapier workflows for a mid-sized software company of 500 to 1,000 employees. Run workflow discovery and mapping, design automations that connect business systems, and integrate LLMs into day-to-day operations.

Learning Journey AI - AI Associate

2026 to Present | Remote

DC-based AI integration consultancy founded by a former U.S. Department of Defense AI leader. Built the company website (learningjourneyai.com) and learning platform (LMS). Created the "Intro to Claude Code" and "Claude Code Power User" courses, and was a key designer on an "AI for Nonprofits" course co-created with founder Nick Wagner, covering AI workflows with Claude for nonprofit teams.

Structure Properties - Onboarding and LMS Consultant (Contract)

Nov 2025 to May 2026 | Remote

Built Quackfolio, a custom white-label onboarding LMS, for a San Francisco property management company across 7 roles. Produced 39 training videos, built Claude-integrated quiz gating and automated certification, and added compliance tracking. The company is planning to roll Quackfolio out as their own software.

Ability Builders - AI Implementation (Pro Bono)

2026 to Present | Mesa, AZ

Help a local nonprofit that supports people with disabilities in finding and maintaining employment adopt Claude Code and AI workflows into their day-to-day operations.

Skytech - Sales Representative and Trainer

March 2024 to March 2026 | Hybrid

Generated and converted leads through direct outreach. Trained and onboarded 10+ team members in process, communication, and performance tracking.

SELECTED PROJECTS

n8n Public Automation Library - 10,000+ total uses

Published 25 production automation templates across the n8n community (n8n.io/creators/hyrum-hurst). Top templates:

- AI video production pipeline (Telegram, Gemini, Veo) - 3,956 uses
- Lead capture and SMS scheduling - 1,720 uses
- Consulting client onboarding and follow-up - 1,055 uses
- Property management operations suite (tenant triage, inspections, SOP generation, compliance tracking)
